educational grant from
Pfizer Inc.

PROGRAM OVERVIEW

Today's pharmacists are more important than ever! In the last quarter century, pharmacy has expanded its role within the health care delivery system from a profession focusing on dispensing of medication to patients, to one in which pharmacists provide a range of patient-oriented services to maximize the medicine's effectiveness.

The goal of this educational meeting is to provide practicing pharmacists with the most up-to-date clinical information on the treatment of dyslipidemia. Recent evidence based clinical data has led to a paradigm shift in the medical management of this disease. This educational activity is designed to promote excellence in the practice of medicine through education leading to improved patient outcomes.

ACCREDITATION Massachusetts College of Pharmacy and Health Sciences is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmaceutical education. Participants will receive one (1) contact hour. Statements of credit will be mailed within four to six weeks following the program. 026-000-05-042-L04

CREDIT DESIGNATION The Massachusetts College of Pharmacy and Health Sciences designates this educational activity for a maximum of 0.1 CEU. Each pharmacist or allied healthcare member should claim only those credits that he/she actually spent in the activity. Complete signature sheets and evaluation forms must be submitted by participants to receive statements of credit.

ACKNOWLEDGEMENT This educational activity is supported by an unrestricted educational grant from Pfizer Inc.

CONFLICT-OF-INTEREST STATEMENT As an ACPE provider, it is the policy of Massachusetts College of Pharmacy and Health Sciences to require the disclosure of the existence of any significant financial interest of any other relationship a faculty member or a sponsor has with the manufacturer(s) of any commercial product(s) discussed in an educational presentation. This information can be found in the program materials distributed at the meeting.

AMERICANS WITH DISABILITIES ACT The Massachusetts College of Pharmacy and Health Sciences fully complies with the legal requirements of the ADA and the rules and regulations thereof. Please notify us if you have any special needs.

EVALUATION FORM (*How to obtain your credits/certificate*) All participants will have the opportunity to review the educational sessions and speakers and to identify future educational needs. Signature sheets and evaluation forms must be completed in order to receive continuing education credit. No partial credit will be given. Participants must attend all sessions for credit.

FEE INFORMATION There is no fee for this educational activity.

EDUCATIONAL OBJECTIVES The purpose of this meeting is to bring together pharmacists from diverse practice environments to discuss the following topics:

- Recognize and assess risk factors that contribute to the development of CHD, including dyslipidemia, and identify appropriate treatment strategies
- Assess the results of recent clinical trials and implications of current treatment guidelines and delineate strategies for provider interventions
- Identify common challenges relating to patient adherence to therapies and develop strategies to improve outcomes
- Discuss essential components of a lipid management program and the role of allied healthcare team members

TARGET AUDIENCE This activity is intended for pharmacists and allied healthcare team members who must maintain a current understanding of cardiovascular diseases and their various manifestations.

PROGRAM AGENDA

THURSDAY, MARCH 16, 2006

6:15PM - 6:30PM	Registration and Social
6:30PM - 7:30PM	Dinner/Speaker Presentation
7:30PM - 7:45PM	Dessert/Question & Answer Session
7:45PM - 8:00PM	Closing Remarks
